Education

Dr. A. P. J. Abdul Kalam Technical University, Lucknow
Bachelor of Technology in Computer Science and Engineering

Sept 2018 – Oct 2022

Technical Skills

Languages: JavaScript, TypeScript, Python

Frontend Technologies: HTML5, CSS3, SASS, React.js, Redux Toolkit, Next.js, Tailwind CSS, Shadcn UI

Backend Technologies: Node.js, Express.js, PHP

Databases: MongoDB

Version Control Deployment: Git, GitHub, Vercel, Heroku

Other Skills: Video Editing, Graphic Design (Logo and Banner Creation), 3D Modeling and Animation (Blender), Canva, Figma

Projects

TraiHive — *React Js, Tailwind CSS, Swiper, Lottie-React*

[live project](#) 

- Developed a movie trailer app using React and TMDB API, featuring real-time movie data, search functionality, and a responsive UI enhanced with React Icons, Swiper, and Lottie animations.
- Implemented GSAP and React Waypoints for smooth animations and dynamic content loading, while integrating GitHub and LinkedIn links to showcase skills and foster networking

Quiman E-Commerce UI — *React.JS, Tailwind CSS, Framer-Motion, Swiper, Lottie-React*

[live project](#) 

- Designed a responsive e-commerce user interface using React and Tailwind CSS, organized into sections for women, men, kids, and babies.
- Developed dynamic filtering and search capabilities to enhance user experience by allowing product display based on user input.
- Incorporated Lottie animations and libraries like Framer Motion and Swiper for engaging visuals and smooth transitions, including a playful animated "not found" page.

Azman's IDE — *React JS, Tailwind CSS, Monaco Editor*

[live project](#) 

- Developed Azman's IDE, a versatile code editor supporting HTML, CSS, and JavaScript, powered by Monaco Editor for a seamless coding experience with a responsive design built using Tailwind CSS.
- Integrated features like dark mode toggle for engaging visuals and smooth transitions, including a playful animated "not found" page.

Certifications

- 100 Days of Python Certification – Udemy.
- Mastered Python by completing 100 projects in 100 days, focusing on data science, web automation, website development, game development, and app creation.
- React & Redux Certification – Udemy
- Gained expertise in React.js and Redux by applying modern design patterns to build applications using React Router, Tailwind CSS, Context API, and Hooks.

Contributions

- Contributed to a repository of 100+ Vanilla JavaScript projects, featuring small-scale, functionality-based applications utilizing HTML, CSS, and JavaScript.
- Developed and maintained a collection of React.js mini apps that demonstrate reusable functionalities, helping users learn from basic to advanced concepts in React.js.

Coding Platforms

- Solved over 50+ coding challenges on LeetCode, focusing on JavaScript algorithms and data structures..
- Actively solving additional problems on GeeksforGeeks and InterviewBit to further enhance my skills.
